

## In the Claims

Please rewrite Claim 3 as follows:

(Amended) 3. An input device according to claim 1, wherein the first and second operating members are arranged in an L shape.

Please rewrite Claim 5 as follows:

(Amended) 5. An input device according to claim 1, wherein one of the first and second operating members tilts with the associated first or second rotary electric part as a fulcrum when pushed in a direction perpendicular to the axial direction thereof, and a push-switch is operated by the tilting motion.

Please rewrite Claim 6 as follows:

(Amended) 6. An input device according to claim 1, wherein both the first and second operating members tilt with the first and second rotary electric parts as fulcrums when pushed in directions perpendicular to the respective axial directions, and a push-switch is operated by the tilting motion of each of the first and second operating members.

Please rewrite Claim 9 as follows:

(Amended) 9. A portable electronic device according to claim 7, wherein the first and second operating members are arranged in a T shape.

Please rewrite Claim 10 as follows:

(Amended) 10. A portable electronic device according to claim 7, wherein the first and second operating members are arranged in an L shape.

Please rewrite Claim 12 as follows:

(Amended) 12. A portable electronic device according to claim 7, wherein one of the first and second operating members tilts with the associated first or second rotary electric part as a fulcrum when pushed in a direction perpendicular to the axial direction thereof, and a push-switch is operated by the tilting motion.

Please rewrite Claim 13 as follows:

(Amended) 13. A portable electronic device according to claim 7, wherein both the first and second operating members tilt with the first and second rotary electric parts as fulcrums when pushed in directions perpendicular to the respective
